

Dear Sir/Madame:

Please allow the State of Wisconsin to govern and oversee the "No Call List" which prohibits unsolicited advertising to private and personal home telephones by telemarketers.

The citizens of the State of Wisconsin believe that this issue should not be driven by the desires of businesses that wish to again invade the sanctity of our homes with their constant badgering. The State of Wisconsin should retain the right to protect it's citizens from undesired marketing.

Please vote in favor of the State's right to oversee and administer it's "No Call List".

Thank You.

Sincerely,
Michael E. Anderson
